

RDMAX | RDMCX | RDMIX

## FUND OBJECTIVE

The Fund's objective is capital appreciation uncorrelated to global equity markets.

## REASONS TO INVEST

## INVESTMENT STRATEGY

- The Fund pursues its investment objective by investing in long and short positions on futures contracts, forward contracts and options on futures contracts across a globally diversified universe of over 200 financial and commodity markets.
- Investment decisions are made based on multiple proprietary quantitative trading and risk management models which seek to systematically identify and profit from long-term price trends regardless of market conditions.
- Once a positive or negative trend is identified, the Fund will take a long or short position, respectively, in an attempt to maximize profit while remaining focused on capital preservation.
- The Fund utilizes quantitative methods to limit maximum risk at the market level, the sector level and the portfolio level, including reducing market exposure during drawdowns.

## HOW TO INVEST

Share Class	Ticker	CUSIP
Class A	RDMAX	628255747
Class C	RDMCX	628255739
Institutional	RDMIX	628255721
Min. Initial Investment:		\$1,000
Min. Subsequent Investment:		
Class A & C		\$50
Institutional		\$500

## Growth of \$10,000 Investment

## Annual Returns (%)

## Performance (%): Ending December 31, 2017

	YTD	1yr	3yrs	5yrs	10yrs	Inception*

\*Inception: Institutional 02/01/1994, Class A & C 09/30/2016. Performance shown before 09/30/2016 is for the Fund's predecessor, the Chesapeake Diversified Program.

The maximum sales charge for Class "A" Shares is 5.75%. Class "C" Shares held for less than one year are subject to a 1% CDSC. Performance is historic and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month end performance information or the funds prospectus please call 800-253-0412 or visit [www.RationalMF.com](http://www.RationalMF.com).

The Dynamic Momentum Fund has the same management practices and is in all material respects identical to the Chesapeake Fund, LLC (the predecessor fund) since the predecessor fund's inception on February 1, 1994. The Fund's management practices, investment goals, policies, objectives, guidelines and restrictions are, in all material respects, equivalent to the predecessor limited partnership. From its inception date, the predecessor limited partnership was not subject to certain investment restrictions, diversification requirements and other restrictions of the 1940 Act of the Code. If they had been applicable, it might have adversely affected its performance. In addition, the predecessor limited partnership was not subject to sales loads that would have adversely affected performance. Performance of the predecessor fund is not an indicator of future results.

1Q 2008	9.47%	-9.44%	+18.91%

## Asset Allocation (as of December 31, 2017)

Stocks	34.93%
Currencies	25.14%
Commodities	34.72%
Bonds/Interest Rates	5.21%

**Sharpe Ratio:** A risk-adjusted measure of a fund's performance that indicates a fund's return per unit of risk, defining risk as volatility (standard deviation). **Alpha:** A measure of the difference between a fund's actual returns and its expected performance, given its level of risk as measured by beta. **Beta:** A measure of a fund's sensitivity to market movements. **Correlation:** A statistical measure of how two securities move in relation to each other. **BarclayHedge CTA Index** is a leading industry benchmark of representative performance of commodity trading advisors (CTAs). **S&P 500 TR Index** is used to represent the U.S. large-cap stock market.

## RISK CONSIDERATIONS:

Past performance is not a guarantee of future results.

4099-NLD-1/12/2018

Investors should carefully consider the investment objectives, risks, charges and expenses of the Rational Funds. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling (800) 253-0412 or at [www.RationalMF.com](http://www.RationalMF.com). The prospectus should be read carefully before investing. The Rational Funds are distributed by Northern Lights Distributors, LLC member FINRA/SIPC. Rational Advisors, Inc. is not affiliated with Northern Lights Distributors, LLC.

Investing in the Fund carries certain risks. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. Because the Advisor is primarily responsible for managing both the Fund and certain Underlying Funds, the Advisor is subject to conflict of interest with respect to how it allocates the Fund's assets among the Underlying Funds. Derivatives are investments in which the value is "derived" from the value of an underlying asset, reference rate, or index. The value of derivatives may rise or fall more rapidly than other investments. For some derivatives, it is possible to lose more than the amount invested in the derivative. If the Fund uses derivatives to "hedge" the overall risk of its portfolio, it is possible that the hedge may not succeed. Options involve risks that are not suitable for all investors. No strategy, including option strategies, can eliminate risk. Options strategies in particular may result in the total loss of principal over a short period of time. An investment in an exchange-traded fund (ETF) generally presents the same primary risks as an investment in a conventional fund that has the same investment objectives, strategies, and policies. In addition, ETFs may be subject to the following risks that do not apply to conventional funds: the market price of an ETF's shares may trade above or below their net asset value; an active trading market for an ETF's shares may not develop or be maintained; trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide circuit breakers halts stock trading generally. Because the Fund may invest its assets in underlying mutual funds or ETFs that have their own fees and expenses in addition to those charge directly by the Fund, the Fund may bear higher expenses than a Fund that invests directly in individual securities.
