Class A	\$76	0.71%

How did the Fund perform during the reporting period?

The Rational Strategic Allocation Fund (the "Fund") seeks current income and moderate appreciation of capital by implementing a distinct "index plus" strategy that provides investors exposure to a non-traditional mutual fund portfolio with an S&P 500 Index equity overlay. During 2024, the Fund underperformed the S&P 500 Index with a +14.27% (Class A) return versus +25.02% for the S&P 500 Index. The Fund lagged as a result of its allocations to futures contracts on the S&P 500 Index and non-traditional mutual funds.

Investment Strategy The Fund invests in a portfolio of futures contracts on the S&P 500 Index and income-oriented mutual funds typically representing non-traditional fixed income asset classes. We select underlying funds using a fundamental research process, including a top-down analysis of market conditions and investment category historical performance during various market conditions. We also perform a bottom-up analysis of each potential fund for investment, including investment allocations, investment valuations and characteristics, positioning, historical performance during various market conditions and each fund's portfolio manager's outlook. The Fund typically maintains 70% to 100% notional exposure to the S&P 500 Index and 70% to 100% notional exposure to the fixed income portfolio.

Fund Performance The Fund performed in-line with our expectations. Our exposure to S&P 500 Index futures contracts allowed us to participate in the upswings of the equity markets. The non-traditional mutual fund portfolio served to provide current income; however, the non-traditional mutual fund portfolio experienced moderate price declines. Throughout 2024, we were able to maintain our targeted notional exposure of 70% to 100% to the S&P 500 Index.

The majority of the holdings performed to our expectations. The non-traditional mutual fund portfolio holdings contributed the following during 2024: the Catalyst/CIFC Floating Rate Income Fund (CFRIX +0.66%), the Rational/Pier88 Convertible Securities Fund (PBXIX +0.04%), and the Catalyst Systematic Alpha Fund (ATRFX -3.68%).
